NEWS & VIEWS

By Jim Stoutjesdyk, MoneyTalk$ Editor

Welcome to the latest issue of MoneyTalk$! We have continued to modify the format and content of our magazine in response to your many positive comments. Remember -- this is your publication and we value your input and suggestions. In this issue you will find a diverse selection of quality collectibles, many new purchases and special offerings, and a very frank and informative article by Ira Goldberg about what we accomplished in 1991 and where we are heading in 1992.

Ancient coin enthusiasts will find a selection of new purchases featuring many scarce issues and high grade pieces. The offering in our last issue was a tremendous success, with nearly every piece selling out within the first week after publication. I told many disappointed customers whose selection had already been sold that we would be acquiring more coins of a similar type for this issue. We were unable to purchase as many coins as we had hoped to because of our rigid standards of offering only quality coins at affordable prices. However, as this issue goes to press, Ira is returning from Switzerland with a wonderful group of ancients which will appear in the next issue.

Be sure to examine the fascinating selection of Roman intaglios located on page 8 and 9. These curious artifacts are miniature works of art featuring mythological gods, animals, and Roman warriors. They are incuse carvings into glass or stone, often used as a seal when mounted in a ring, and are suitable to be used as jewelry today. Order quickly, as each is unique and we expect a quick sell-out.

Currency collectors will find a wide selection beginning with Fractional issues. We recently purchased this collection, which features many scarce notes and high-grade pieces, and we have priced it to sell. Be sure to examine our Large Size selection carefully to find such desirable notes as a Choice CU Educational $5 and Bison $10. Don't miss the opportunity to purchase a rare Giori block at a special price on page 18.

Sports memorabilia makes its debut in this issue of MoneyTalk$ as Superior continues to expand into different areas of collectibles. We welcome Steve Applebaum as the new head of the Sports Department and invite you to call him with any questions you may have about this rapidly growing field. Superior is

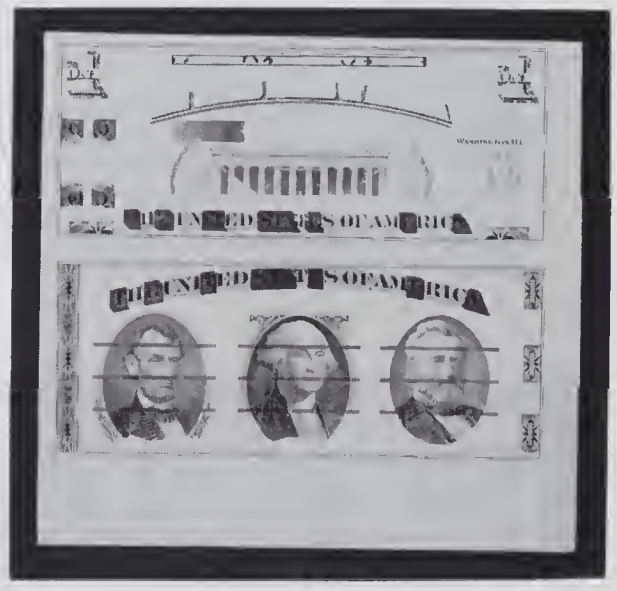
Rare Giori Blocks



Sometime after 1950, when the inventor of the Giori press Gualtiero Giori first corresponded with the Bureau of Engraving and Printing, the Bureau sent a test plate to West Germany where experimental printings were made. An improved version of the press was capable of printing "...up to three colors simultaneously from a single plate...", but quite adaptable to single color requirements. This is the Giori press purchased and put into operation by the Bureau. Test pieces printed in Germany should have been destroyed, but some examples have been appearing in the marketplace. Although unintended for the private sector, these unusual pieces may now be legally held by collectors. A minimum estimate is that 200 sheets are known.

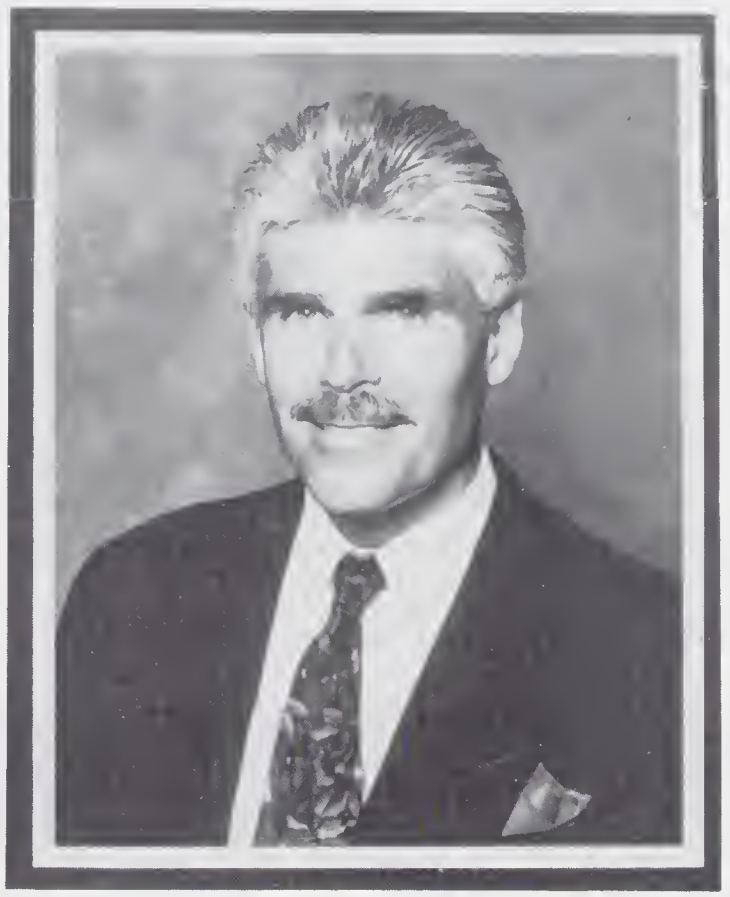
1991 - Where We've Been
1992 - Where We're Going

by Ira Goldberg



1991 was quite a year. In fact, it was a shake-up year for many well-known numismatic houses. It's no news that Superior didn't get rich in 1991, but we did accomplish quite a few things.

One of the big realizations for us this past year was the fact that, if our firm was to grow, it could not be done through coins and stamps alone. We are the leading numismatic auction house in the world and our gross sales plummeted drastically in 1991 compared to 1990. We sold roughly the same amount of coins, but the total realized was much less, consequently our profits fell too. It didn't take a rocket scientist to recognize that we had to tighten our belts as well as broaden our horizons.

Much of our revenues come from auctions, although we do have a large amount of wholesale and retail trade. We expanded our Manuscript Division by holding two auctions in 1991, both of which were very successful. We also entered the Sports Memorabilia field. We had one auction in October 1991, at which we sold over $1 million worth of sports items and certainly made an impact in that field as well.

We were fortunate in being able to expand our horizons in collectibles and the number of auctions we held, while keeping basically the same staff. Perhaps we're all overworked with many late nights and cold dinners brought in, and many more Saturdays and Sundays than any of us would have liked, but everyone realized that it was a belt-tightening year and if Superior was to continue to grow, we had to keep a handle on general overhead.

Our August 11, 1991 auction (just before the ANA) was an unexpected surprise. At the time we thought it was the bottom of the market, yet we sold a lot of very expensive coins, many in the four and five figures, including an 1880 Coiled Hair Stella which went for $440,000. Also Larry Shepherd's fabulous set of U.S. Commemoratives was sold and realized over $1 million at this sale. This spirit carried over to the ANA. We didn't bring a lot of expensive coins to the ANA, instead we brought mainly collector material, and the response was fabulous.

The ANA proved that there are a lot of collectors out there who are willing to buy coins if the price is reasonable, and the coins don't all have to be Gem Mint State 65. I think that the "MS 65" mentality has gone out the door, along with the need for some third-party grading.

We had a fabulous stamp auction in November, The Beverly Hills Sale, which was phenomenal. It showed us that top-quality stamps are very much in demand. It's the mediocre material that seems to get hurt in the weaker markets. The same holds true in numismatics.

On December 5, 1991, in New York, we held the sale of the Abraham Bromberg Collection of Jewish Coins, Part I. This sale was really a question mark to me—I wasn't sure how the sale would go, because it was a very specialized field, yet it was one of the finest collections of its type ever formed. Fortunately, the sale was an unbelievable success. In fact, in my twenty plus years in the auction business, it was the wildest sale I've ever conducted—the wildest I've ever attended. We estimated the sale to bring about $800,000 to $900,000, and ended up realizing nearly $2 million. Bidding was fierce between floor bidders from around the world and phone bidders. It was a truly exciting event and it proved to me that the right material can make all the difference, recession or no recession.

I think 1992 is going to be a very good year for collectibles. With the low interest rates, collectibles have a very good future. I don't want to tout them as investments, but when interest at the bank is 3-4%, people will look for alternatives in which to put their money. Nobody wants to put money into a hobby that

FABULOUS COLLECTION
OF FRAMED AUTOGRAPHED LETTERS
SIGNED BY *"THE BABE RUTH OF TENNIS,"*

BILL TILDEN

William T. Tilden, II (1893-1953) - the first American male to win Wimbledon, led the American team to win the Davis Cup a number of times, won the U.S. Open repeatedly, all while still an "amateur" player! He was voted the *Top Athlete of the First Half of the 20th Century* by the American Sports Writers Association, and dominated Men's Tennis worldwide for over 20 years. In fact, at the rather advanced age of 48, in a well-publicized event, he defeated the newest rising star on the Men's Tennis horizon, Jack Kramer! His nickname "The Babe Ruth of Tennis" is obviously well-earned. Even today, many of Tilden's records of achievement in the tennis world remain intact.

Rarely available on the autograph market, we now have the distinct honor to offer a collection of beautifully framed letters written by Bill Tilden, America's first top-seeded tennis player, to personal friends during his period of incarceration for breaking parole on an earlier charge of contributing to the delinquency of a minor.

Each letter is in pencil on lined paper, to his tennis student, Art Anderson (often referred to as "Brat"), or to Art's mother, who handled some of Tilden's personal business while he was in prison. Every letter is displayed in a quality archival, acid-free frame with a photograph of Tilden taken just after one of his numerous wins at the U.S Open (then the U.S. Lawn Tennis Association), holding his trophy and several Dunlop tennis rackets (a company whose products he endorsed). In addition, each letter is accompanied by the transmittal envelope, indicating date and time the letter was sent from the Saugus Men's Correctional Facility where Tilden spent about six months.

There is a limited supply of these magnificent framed letters, each attractively priced at **$395.00.** Any tennis aficionado or fan would delight in owning such an important piece of American sports history!

proud to announce that it is the official auctioneer for the National Sports Collectors Convention to be held this July in Atlanta. This is the largest sports convention in the world and is expected to attract over 100,000 visitors. The next issue of MoneyTalk$ will feature manuscripts, the other new area of collectibles we have recently entered.

Judging from the activity and strong prices at our recent Century Collection Sale and the Long Beach Convention, it appears that the market is starting to recover. Prices seem to have firmed up and the future looks bright for the coin market. We had a lot of interest in our last offering of slabbed coins and once again bring you another nice selection of PCGS and NGC coins at near wholesale prices. Also in this issue you will find several pages of world gold coins, all specially priced, with many only slightly higher than their bullion value.

Stamp collectors will be happy to see that stamps have returned to MoneyTalk$ after nearly a years absence. Philatelists will find over 60 pages of material to choose from in a wide selection of areas. Remember -- if you don't see something you're looking for, just give us a call. These listings represent only a tiny fraction of our vast inventory. If we don't have it, we probably know where to find it -- and at the lowest price.

Plans are already being made for the next issue of MoneyTalk$. I have just returned from picking up a wonderful collection of Columbian Exposition memorabilia. Over 500 pieces of exonumia from the Worlds Fair held a century ago will be offered in a mail bid sale in our next issue. This should be a very exciting sale since interest in this material is at its peak as we mark the 500th anniversary of Columbus discovering America.

Please let me know what you would like to see in future issues of Moneytalk$ as I welcome your comments and suggestions.

Century of Progress "Graf Zeppelin"

Commonly call the "Baby Zepp" due to its low (50¢) face value, this stamp is a must to every collector. Everyone cannot afford the "big" Zeppelins (C13-15, cataloging $1850.00) but nobody should be without the "baby." Who knows — it may grow up someday and join the others. Be that as it may, we have recently acquired a small group of C18's in VF, LH condition. These stamps catalog $80.00 each yet may be yours for only...

SOVIET SHUTTLE COVER

A Philatelic envelope has been prepared by Mezhunarodnaya Kniga, the Soviet space agency, to commemorate the first test flight for the space shuttle Buran. The covers were not aboard the shuttle itself, but were at the Baikonour space facility for the launch and recovery.

The beautiful red and blue multicolored printed cachet reads, "Multipurpose Reusable Cosmic Ship," and the rubber stamp shows a line drawing of the space shurrle and reads "Experimental Flight 15.11.1988 Orbital Rocket 'Buran'."

The postmarks on the Yuri Gagarin postage stamp are from the "Baikonour Cosmodrome" and are dated November 15, 1988. There There are two postmarks, one for the launch and one for the successful landing at the space center.

The back of each cover has a rubber stamp, with the legend in Russian and English,"Commemorative Cover Devoted to the Test Launching of 'Energia' Carrier Rocket and Space Shuttle Buran 15.11.88 Glavkosmos USSR and V/O Mezhdunarodnaya Kniga." Each cover is individually authenticated and signed by A. Ya. Belostotsky, General Director of Kniga, the official Soviet export agency.

will lose money. I think coins have historically fit that role, but not just coins—good manuscripts, good stamps, good sports items, good first edition books, etc. Stick with the top 5% in any field and I think you'll always do well.

We have a very exciting 1992 to look forward towards. We began our auction season on February 2, with the Roger Cohen Collection of Half Cents, which was the most complete collection of Half Cents ever formed. We put out a very fine catalog and the bidding was strong with many coins selling for 20-30% over our previous expectations. This was immediately followed by the Century Sale, which featured a collection of original Proof sets that had been in one family's hands for over 100 years. The auction featured a virtually complete set of Double Eagles, many in fantastic condition that haven't seen the light of day in over a decade, including the legendary 1927-D. Judging by the activity and strong prices it appears that the market is heating up.

On May 2, 1992, we will conduct another major Manuscript Auction. The trend for manuscripts is for top-end pieces—it's the top 5% of the items that are in demand. For example, fine content material consisting of Presidential Letters, American Patriots, World Leaders, items of historical importance, etc. These letters and documents are probably the fastest growing area in the entire collectible field.

On July 8, 9, and 10, 1992 at the National Sports Collectors Convention in Atlanta, Georgia, we will be conducting for the first time ever an auction in conjunction with the National. This should be an unbelievable sale. Already we have consigned the Bill Tilden collection of tennis trophies—a Wimbledon Trophy, his Davis Cup Trophies, and his U.S. Lawn Tennis Association Trophies—an incredible group of treasures. Also Jack Dempsey's World Heavyweight Championship Belt will go on the auction block. We have some truly stunning items for that sale, and we're really looking forward to it. The show promoters expect well over 100,000 sports collector enthusiasts to attend this week-long event!

What I think will be the numismatic event of the year is the upcoming auction of the Ed Trompeter Collection of United States Proof Gold, Part I to be held February 25, 1992. Ed formed what would have to be the finest collection of U.S. Proof gold *ever* assembled. It's interesting the number of people wondering why he would sell now—the answer is simple. Looking back, it would have been prudent to sell the collection during the late 1980's, as it would have brought maybe twice as much as it will today. Nonetheless, the time for a serious collector to sell is when he has completed the collecting goal he has set out to achieve. When you can no longer add coins, or age has caught up to you, it's time to think of disposal. Too often, coins are left to heirs or bank executors, who know or care little for them. A collector has a responsibility to see to it that the collection is disposed of properly, particularly if there is no one who has interest or concern for it. Ed certainly feels this way, and we're putting together a catalog that will put the industry on its ear. It will be a full-color catalog that the staff at Superior has poured heart and soul into. If anybody has an interest in Proof gold, this is the sale to attend. Numismatists know that Proof gold coins are considered the "Rembrandts" of the numismatic world. Part I of this sale will be held February 25, 1992 and will include Gold Dollars, $2.50's, Three Dollar Gold and Four Dollar Gold, all in Proof, as well as his $2.50, $5, and $10 Indians, all in Brilliant Uncirculated condition.

Part II will be sold in November and will consist of Ed's $5, $10, and $20 in Proof, as well as his special Pattern Proof issues. I should also note that all his coins will be sold raw, in the older, more traditional manner—being graded adjectivally, meaning "Proof," "Choice Proof," or "Gem Proof." This is the way coins were collected one hundred years ago, it is the way Ed collected them, and the way we're going to sell them at auction. Ed detests slabbing and wants them sold in their natural state and who can blame him?

As far as the grading services are concerned for 1992, I hope there will be a de-emphasis in slabbing. Not everything has to be encapsulated to be collectable. "Slabamania," I think is far overdone—certainly there is a need in some cases, but the minor differences of only a point or so can create so much difference in price that the collector simply will not accept it. Buy the coin and not the plastic—that's the best advice I can give anybody.

Superior is looking forward to a great 1992. I'm very high on collectibles and my advice is, buy coins, buy manuscripts, buy stamps or sports memorabilia that have a proven track record. Don't buy anything that has instant or short-lived interest and then only buy the top 5% of those proven items. Such collectibles will always be in demand and they will be the ones you'll most cherish. When you buy the best you're never sorry.

My family and I and the staff at Superior would like to wish you all a very healthy and happy prosperous New Year!

JAPANESE "STAMP" CREDIT CARDS

Modeled after the immensely popular telephone credit cards in Japan, these plastic "cards" are designed to allow stamps to be easily purchased from vending machines.

They work like this. A card is purchased from the post office in a specified "Yen" amount (Y500, 1000, or 3000). The card is then placed in the vending machine and the value of stamps purchased are deducted electronically from the card. When the purchased face value of the card is used up, the card no longer works.

We are pleased to offer our readers the 1st and 2nd printings of these cards. Each set consists of 17 different cards as follows: 10 different Y500 cards, 5 different Y1000 cards and 2 different Y3000 cards,(total Y16,000 per set). Both sets have the same illustrated pictures but different code numbers and are in VF unused condition. Each set comes in a special plastic album with the cards in special pouches. These sets are sold out at post offices in Japan and are already listed in the Sakura and the JSDA (Japanese specialized stamp) catalogs. This is the start of a new specialized collecting area and we are sure that they will prove to be extremely popular.

We have only a limited number of sets available. When placing your order be sure to specify if we should back order your order if we've already sold out.

Germany MINT NH/LH

Stamps of German issued before 1960 in NH condition require often very large premiums because they are quite scarce. You can save money if you will accept clean LH stamps. Please let us know what you need and we will quate what we have available.

Superior Stamp & Coin Co., Inc.

Subject: 6-8902-S; Sale of Foreign Coins

Dear Mr. Goldberg:

On June 16, 1989, the District's General Manager accepted your offer for the Purchase of

We are passing on to our readers our good fortune in being awarded our bid to acquire literally tons of foreign coins which the good citizens of Southern California have dropped into the fare boxes of the thousands of busses that cruise this area. It literally took several trips for us to haul our successful bid back to our store and we want to move this massive group just as fast as possible. So let's get the price down and move it out. We took a sample look at one of these 50 pound bags and found a considerable amount of European coinage which has substantial face value. It is interesting to note that we found very little copper coinage among this group. There is a wide assortment of coinage from all over the world and we think that you will agree that these unsearched bags will at least provide you with some real enjoyment. Naturally we will not accept returns since we would never be able to know what was originally contained. We have decided to chop our price to a record low amount just to move them out.

NEW TREND IN EXAMINING RARE COINS

If you have recently attended rare coin auction sales, you may have observed that the latest trend in examining rare coins is in a darkly lit room and a powerful single source of lighting. The purpose behind this type of viewing is rather simple. By eliminating outside light sources and allowing a single powerful light source to provide the lighting, we find that glare is no longer a problem and the coin can be maneuvered to provide more controlled visibility.

The interesting feature here is that this manner of viewing coins is being utilized by several of the major grading laboratories and thus by utilizing the same principle, one is more likely to be able to examine a coin and better ascertain how the coin will be graded if sent in for a certificate.

We are pleased to announce that Superior Stamp & Coin is distributing both the light source and the magnifier which are being used to grade coins by some of these grading laboratories. It has been no secret within the trade that our line of halogen lights and magnifiers have been great sellers. We are pleased to provide this listing of our more popular products. We have placed an asterisk beside the two items being used by these laboratories. All represent great quality and will serve you for many years.
